NOTICE OF STATE FOREST TIMBER SALE

Sealed bids will be received for the purchase of all timber (sawtimber and pulpwood) estimated for harvest on the designated portion of the Cumberland State Forest, located in Cumberland County, Virginia. See attached maps. Bids will be received by the Virginia Department of Forestry, Attention: Administrative Staff Assistant, 751 Oak Hill Road, Cumberland, VA 23040, until 10:00 a.m., Wednesday, November 19, 2014, at which time all bids will be opened.

The timber sale area contains four stands totaling approximately 49.9 acres of forestland. The timber sale area also contains a strip that is approximately 750 feet long and 50 feet wide that will be used for constructing new road. The timber is primarily pine with a small amount of hardwood. All sawtimber and standing pulpwood is estimated and scheduled for harvest cutting under this contract. Ingress and egress shall be only through access roads shown on the map or mutually agreed upon. All logging activity will be confined to the sale area and any logging debris accumulated outside the sale area, including the reserve strips, must be pulled back inside the sale area. Stump height shall not exceed 10 inches above mineral soil.

All harvest stands are located on a gated forest trail that starts on the south side of Toll Gate Forest Road where the Cumberland State Forest boundary meets private land. This is also the point where Rt. 625, Baber Road, becomes Toll Gate Forest Road. The gated trail that gives access to the timber sale lies entirely on state forest lands. The timber sale boundary has been marked with blue paint stripes. Trees in the new forest road construction area are individually marked with a yellow "X". **Special Note:** The forestland located within 100 feet of Bigger Creek and some of its tributaries have been placed in a wetland mitigation program. The mitigation area is adjacent to the harvest area as shown on the provided harvest map. Areas where the mitigation buffer meets the timber sale boundary are painted with both blue and orange paint stripes. ABSOLUTELY no cutting or equipment operation is allowed inside the 100 foot mitigation buffer.

All sawtimber and pulpwood sized trees within the sale area have been cruised. All merchantable timber is to be harvested by clear felling. The Department reserves all rights to cone and/or seed collection from the tops of marked or cut trees.

The following volumes are only estimates and not guaranteed. Each bidder is urged to use their own cruise data to compute bids. Topwood was not cruised nor used to derive the figures below.

 - (a) Stumps shall be cut in such manner as to cause the least possible waste and not higher than 10 inches above ground level, except on misshapen or defective trees where cutting below 10 inches is not practical.

 - (d) The Purchaser shall guard against the unnecessary transfer of mud and debris by vehicle onto the public highway system of the Commonwealth of Virginia, whereby the same poses a threat to public safety. Furthermore, the Purchaser assumes the responsibility for the preventive and/or corrective action necessary to eliminate this source of hazard should the problem develop. *A Blanket Use Permit issued by the Virginia Department of Transportation is on file and is applicable for highway entrance under this contract.*
